SUMMER | FALL 2014

Center Line Spotlight: Whitlam Label

For more than 50 years, Whitlam Label Company has been an industry leader in custom engineered solutions for Labels, Functional Die-cut Components, Protective Films, and Product & Brand Security. Serving a diverse customer base that includes automotive, industrial, and consumer packaged goods markets.

Whitlam Label Company was founded by Elmer Whitlam in 1957, and was purchased by the Shaieb family in 1970 operating in East Detroit with only four employees and two printing presses. In the 1980s Whitlam was growing at a rapid rate, and continued to need more space to accommodate their growth. Whitlam decided to move their headquarters to Center Line, Michigan where they built a 120,000 square foot facility

where they continue to operate today. Whitlam Label continues to operate as a privately-held, family owned company, serving over 1,000 customers around the world, and employs over 150 people. As Whitlam Label Company continues to grow they are committed to investing \$5 million over the next 3 years in new technology, new jobs, and the local community.

Gabby Bryant from the DIA on tour with a group of all ages from Center Line Parks & Recreation at the Recreation Building featuring the work of art *Hard Ball III*.

DIA Inside | Out

Gabby Bryant from the Detroit Institute of Arts came to Center Line on May 10 to give a guided tour to each of the seven locations where art is installed outside. Her tour included interesting facts about the art, artists, and the DIA Inside | Out program. For example, the artist of the work at the library, Francis Millet, was Mark Twain's best friend, and he died helping women and children board lifeboats on the *Titanic*. The DIA will pick up Seniors 55+ for a trip to the museum on July 17. Call the Recreation center at 757-1610 for more information. Art will be up in Center Line through July 10. A map of where the art is installed in Center Line is on page 7.

July Events

- } July 1—City Fireworks at Memorial Park. 6pm
- } July 2—Anime Club for Teens. Library 6pm.
- } July 7—Job Seekers Group. Open to anyone looking for a job. Support and tips. 11 am.
- } July 9—Gardening program 6pm. Children welcome—garden crafts for kids also 6pm.

Have a blast this summer at Michigan's Adventure with Center Line Parks & Recreation!
586-757-1610

Michigan's Adventure

\$36.50 per person includes a ticket to Michigan's Adventure Amusement Park—including their Water Park and a family style all-you-can eat buffet dinner of BBQ chicken, hot dogs, hamburgers, sides, and ice cream.

We will take a luxury bus complete with Wi-Fi, power outlets, and TV screens so we can watch a movie or two on our long bus ride. The bus will leave the Recreation Center at 7:00 am and return around 10:30 pm—but what a fun filled day!

Saturday

August 23, 2014

\$36.50 each

Free Nutrition Classes!

Tuesdays

July 15 to Aug 19

6pm-7pm

Register: 586-758-8274

MSU Extension will offer these free classes at the Center Line Library. Enjoy

taste testing, recipes, and prizes including a chance to win a Fitbit!

In this class you'll learn to:

Eat healthy on a budget, increase your physical activity and set goals, discover tips for reaching and maintaining a healthy weight, learn to prepare quick, healthy meals and snacks, and make healthy eating part of your lifestyle.

Questions? Call Ellen at MSU 586-469-6019

Cynthia Dale (left), Lucy Peacock

Hay Fever by Noel Coward

Stage Star Judith Bliss, her novelist husband and their two grown children have each invited house guests for the weekend. But as the Bliss family indulge their artistic eccentricities in a hilarious whirlwind of flirtation and histrionics, the guests begin to wonder if they've landed in a mad house—and if they can survive the weekend with their own wits intact.

Also Included

- ♦ Costume Warehouse Tour
- ♦ Private Luncheon at the Chalmers Lounge at the Avon Theatre.
- ♦ Luxury Bus with Wi-Fi

There will also be time to visit the charming shoppes in Holly's Historic District after tea. Register by November 3.

Neighborhood Free Tree Program

The Center Line Neighborhood Free Tree program began in May with twenty-six Center Line residents receiving trees professionally planted in their yards free of charge. The program will be repeated in 2015 with even more trees to choose from. The program application will be published in the Winter/Spring *Insider*, but you can reserve your tree now by mailing the below form to city hall at 7070 East Ten Mile Road or by calling city hall at 586-757-6800. Trees must be planted between the sidewalk and the home. Participants must agree to maintain their tree and attend a one hour tree care class. Thank you for helping make Center Line a more beautiful place to live.

\$30 Balcony Seats or

\$60 Floor Seats

Bus leaves at 6:15 pm

Join us for this unique Christmas concert featuring Celtic Thunder and accompanying symphony orchestra. Register by October 10 for this event.

OPEN HOUSE 2014

Pancakes, freebies, books for sale, and a wealth of other delights await you at the City of Center Line's annual Open House this October. Usually taking place during Fire Safety Month, this is a chance for you to see fire trucks and police cars up close, but also to learn new safety tips to keep your home and family safe. This year the open house will be October 12.

Public Safety: CERT Team Forming

CERT—Citizen Emergency Response

Team—the Center Line Public Safety Department is looking for citizens

who want to utilize their skills in an emergency situation. Public Safety is seeking individuals with CPR, first aid and other related skills—even directing traffic—to lend a hand

when the time comes. Call Director Paul Myszenski directly at 586-757-8258 if you are interested in joining

SAFETY TIPS FOR THE SUMMER

- ◆ Remember to lock your vehicle doors at all times when it is parked.
- ◆ Keep porch and garage lights on at night to deter trespassers
- ◆ Keep garage doors shut when not outside.
- ◆ Be aware of your surroundings at all times.
- ◆ If you observe an erratic driver call the police. Be ready to give the make and model of the vehicle, license plate number, color, direction of travel. We apprehend many drunk drivers because of citizens calling.

Call in any suspicious activity to our main line:

586- 757-2200

Emergency: Call 911

Pedestrian Crossing

Please keep in mind that we need to follow the rules of the road when it comes to crossing the street. A reminder that all pedestrian traffic must cross the streets at the intersections within the crosswalk. For your safety, our officers will be enforcing the law and you could be issued a traffic violation. We want you to have a healthy and safe summer.

Bikes & Motorcycles

All drivers should pay extra attention to children on bicycles and people on motorcycles. Please take the extra time to take a second look before you back up, change lanes or make turns. In the blink of an eye disaster can happen.

Fireworks

Under the city ordinance pertaining to fireworks you may only shoot fireworks off the day before, day of, and the day after any national holiday. It is illegal to do so any other time. It is also illegal to shoot fireworks off in any City Park. Violators will be ticketed.

Fraud and Scams

The warm weather brings out the con-men and women. As the years pass, these individuals become more brazen and bold in their scams. Some of the more common scams include: reroofing your house, sealing the cracks in your driveway, checking the water and electricity in your home, and giving them some money for a larger sum later. The intent of these people is to steal from you. If they appear at your door without you first calling them, be suspicious. Never let them in your house. We tell our children and grandchildren not to talk to strangers. When it comes to scam artists, the same holds true for adults. If you become afraid call a neighbor or 911 to make a report. Community involvement is a key to crime prevention in our city.

Pets

Your pets are affected by the heat of summer just like you. Be sure to leave plenty of water available to them. Never leave your pet or child in an enclosed vehicle when you are not present. It takes only a minute for temperatures to reach dangerous levels. Make sure your dog is properly licensed. Licenses are available from the Macomb County Animal Shelter. As responsible pet owners, you should abide by the city ordinance on dogs.

Blight

Our Ordinance officer will be taking an aggressive and proactive approach to blight in the city. If you have any problems pertaining to blight, contact the city and the ordinance officers will follow up on the complaint. Let's work together to keep Center Line a beautiful city.

File for Life

File For Life is a program designed to give our Public Safety Officers necessary medical information about you in the event that you are incapacitated and cannot communicate with us. All you need to do is pick up the form at the Public Safety Department, fill it out, and keep the form in the File for Life envelope on your fridge. The form will contain basic medical information that would help our officers in the event that we respond to your home for a medical emergency. Our officers will go directly to the refrigerator, retrieve the form and use the information to better help you.

PINEAPPLE ZUCCHINI BREAD by Barb Sovljanski

- | | |
|---------------------|--|
| 3 eggs | 2 tsp. baking soda |
| 1 c. oil | 1 tsp. salt |
| 2 c. sugar | ¼ tsp. baking powder |
| 2 tsp. vanilla | 1 ½ tsp. cinnamon |
| ¼ tsp. nutmeg | 2 c. shredded zucchini |
| 3 c. flour | 1 (8 ½ oz) can crushed pineapple, well drained |
| 1 c. raisins (opt.) | 1 c. chopped nuts (opt.) |

In a large bowl, beat eggs. Add sugar, oil and vanilla and beat well until thick. Stir in zucchini and pineapple. Add rest of ingredients. Blend well. Pour into a greased and floured 4x8 inch loaf pan. Bake at 360° for 1 hour, until cake tester comes out clean.

\$8 each available at the library, city hall & rec

City of Center Line Water Quality Report for Year 2013

This report covers the drinking water quality for the City of Center Line, for the calendar year 2013. This information is a snapshot of the quality of the water that we provided to you in 2013. Included are details about where your water comes from, what it contains, and how it compares to Environmental Protection Agency (EPA) and state standards.

Contaminants and their presence in water: Drinking Water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the **EPA's Safe Drinking Water Hotline (800-426-4791)**.

Unregulated Contaminant Monitoring Rule: Unregulated contaminants are those for which EPA has not established drinking water standards. Monitoring helps EPA to determine where certain contaminants occur and whether it needs to regulate those contaminants. Beginning in July of 2012, the Detroit Water and Sewerage Department (DWSD) began monitoring quarterly for unregulated contaminants under the Unregulated Contaminant Monitoring Rule 2 (UCMR2.) All the UCMR2 contaminants monitored on List 1 and List 2 in 2013 were undetected.

Vulnerability of sub-populations: Some people may be more vulnerable to contaminants in drinking water than is the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Cryptosporidium: *Cryptosporidium* is a microbial pathogen found in surface water throughout the U.S. Although filtration removes *cryptosporidium*, the most commonly used filtration methods cannot guarantee 100 percent removal. Our monitoring indicates the presence of these organisms in our source water. *Cryptosporidium* was detected once, during a twelve-month period at our Detroit River intake plants. Current test methods do not allow us to determine if the organisms are dead or if they are capable of causing disease. Ingestion of *Cryptosporidium* may cause cryptosporidiosis, an abdominal infection. Symptoms of infection include nausea, diarrhea, and abdominal cramps. Most healthy individuals can overcome the disease within a few weeks. However, immuno-compromised people, infants and small children, and the elderly are at greater risk of developing life-threatening illness. We encourage immuno-compromised individuals to consult their doctor regarding appropriate precautions to take to avoid infection. *Cryptosporidium* must be ingested to cause disease, and it may be spread through means other than drinking water.

Sources of Drinking Water: The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. Our water comes from Lake Huron and/or Detroit River. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Detroit River Intakes: Your source water comes from the Detroit River, situated within the Lake St. Clair, Clinton River, Detroit River, Rouge River, Ecorse River, in the U.S. and parts of the Thames River, Little River, Turkey Creek and Sydenham watersheds in Canada. The Michigan Department of Environmental Quality in partnership with the U.S. Geological Survey, the Detroit Water and Sewerage Department, and the Michigan Public Health Institute performed a source water assessment in 2004 to determine the susceptibility of potential contamination. The susceptibility rating is on a seven-tiered scale from "very low" to "very high" based primarily on geologic sensitivity, water chemistry, and contaminant sources. The susceptibility of our Detroit River source water intakes were determined to be highly susceptible to potential contamination. However, all four Detroit water treatment plants that use source water from Detroit River have historically provided satisfactory treatment of this source water to meet drinking water standards. DWSD has initiated source-water protection activities that include chemical containment, spill response, and a mercury reduction program. DWSD participates in a National Pollutant Discharge Elimination System permit discharge program and has an emergency response management plan. If you would like to know more about this report please visit the Detroit Water and Sewerage Department's website at www.dwsd.org.

Contaminants that may be present in source water include:

Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.

Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.

Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.

Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

Organic chemical contaminants, including synthetic and volatile organics, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff and septic systems.

Maximum Residual Disinfectant Level Goal (MRDLG): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Maximum Residual Disinfectant Level (MRDL): The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

n/a: Not applicable **Parts per billion (one in one billion), ppb:** The ppb is equivalent to micrograms per liter. A microgram = 1/1000 milligram. **Parts per million (one in one million), ppm:** The ppm is equivalent to milligrams per liter. A milligram = 1/1000 gram. **pCi/l, picocuries per liter:** a measure of radioactivity.

Action Level (AL): The concentration of a contaminant, which, if exceeded, triggers treatment or other requirements which a water system must follow.

Nephelometric Turbidity Units (NTU): Measures the cloudiness of water.

Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water.

Haloacetic Acids (HAA5): HAA5 is the total of bromoacetic, chloroacetic, dibromoacetic, dichloroacetic and trichloroacetic acids. Compliance is based on the total.

Total Trihalomethanes (TTHM): Total Trihalomethanes is the sum of chloroform, bromodichloromethane, dibromochloromethane, and bromoform. Compliance is based on the total.

≥ More than or equal to.

CITY OF CENTER LINE WATER QUALITY DATA

The table below lists all the drinking water contaminants that we detected during the 2013 calendar year. The presence of these contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done January 1 – December 31, 2013. The state allows us to monitor for certain contaminants less than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year. All of the data is representative of the water quality, but some are more than one year old.

Northeast Water Treatment Plant 2013 Regulated Detected Contaminants Tables

CONTAMINANT	Test Date	Units	Health Goal MCLG	Allowed Level MCL	Highest Level Detected	Range of Detection	Violation yes/no	Major Sources in Drinking Water
Inorganic Chemicals – Monitoring at Plant Finished Water Tap								
Fluoride	5/13/2013	ppm	4	4	0.63	n/a	no	Erosion of natural deposits; Water additive, which promotes strong teeth; Discharge from fertilizer and aluminum factories.
Nitrate	5/13/2013	ppm	10	10	0.42	n/a	no	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits
Barium	6/9/2008	ppm	2	2	0.01	n/a	no	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits.
Selenium	6/9/2008	ppb	50	50	1.0	n/a	no	Discharge from petroleum and metal refineries; Erosion of natural deposits; Discharge from mines.
DISINFECTION BY-PRODUCTS – MONITORING IN DISTRIBUTION SYSTEM STAGE 2								
Total Trihalomethanes (TTHM)	2013	ppb	n/a	80			no	By-product of drinking water chlorination
Haloacetic Acids (HAA5)	2013	ppb	n/a	60			no	By-product of drinking water disinfection
Disinfectant Residual – Monitoring in Distribution System								
Disinfectant (Total Chlorine Residual)	2013	ppm	MRDGL 4	MRDL 4	0.71	0.61-0.81	no	Water additive used to control microbes

2013 Turbidity – Monitored every 4 hours at Plant Finished Water Tap			
Highest Single Measurement Cannot exceed 1 NTU	Lowest Monthly % of Samples Meeting Turbidity Limit of 0.3 NTU (minimum 95%)	Violation yes/no	Major Sources in Drinking Water
0.16 NTU	100%	no	Soil Runoff
Turbidity is a measure of the cloudiness of water. We monitor it because it is a good indicator of the effectiveness of our filtration system.			

2013 MICROBIOLOGICAL CONTAMINANTS – MONTHLY MONITORING IN DISTRIBUTION SYSTEM					
Contaminant	MCLG	MCL	Highest Number Detected	Violation Yes/no	Major Sources in Drinking Water
Total Coliform Bacteria	0	Presence of Coliform bacteria > 5% of monthly samples.	in one month		Naturally present in the environment.
E.coli or Fecal Coliform Bacteria	0	A routine sample and a repeat sample are total coliform positive, and one is also fecal or E.coli positive.	entire year		Human waste and animal fecal waste.

2011 LEAD AND COPPER MONITORING AT CUSTOMERS' TAP								
Regulated Contaminant	Test Date	Units	Health Goal MCLG	Action Level AL	90 th Percentile Value*	Number of Samples Over AL	Violation yes/no	MAJOR SOURCES IN DRINKING WATER
Lead	2011	ppb	0	15				Corrosion of household plumbing system; Erosion of natural deposits.
Copper	2011	ppm	1.3	1.3				Corrosion of household plumbing system; Erosion of natural deposits; Leaching from wood preservatives.
*The 90th percentile value means 90 percent of the homes tested have lead and copper levels below the given 90th percentile value. If the 90th percentile value is above the AL additional requirements must be met.								

REGULATED CONTAMINANT	TREATMENT TECHNIQUE	RUNNING ANNUAL AVERAGE	MONTHLY RATIO RANGE	VIOLATION YES/NO	TYPICAL SOURCE OF CONTAMINANT
Total Organic Carbon (ppm)	The Total Organic Carbon (TOC) removal ratio is calculated as the ratio between the actual TOC removal and the TOC removal requirements. The TOC was measured each month and because the level was low, there is no requirement for TOC removal.				Erosion of natural deposits

CONTAMINANT	MCLG	MCL	LEVEL DETECTED	SOURCE OF CONTAMINATION
Sodium (ppm)	n/a	n/a	5.93	Erosion of natural deposits

Collection and sampling result information in the table provided by Detroit Water and Sewerage Department (DWSD) Water Quality Division, ML Semegen.

Warning about the vulnerability of some populations to contaminants in drinking water.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Center Line is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

If your home has a lead service line or piping that has lead soldered joints you can take the following precautions to minimize your exposure to lead that may have leached into your drinking water from your pipes.

- Run your water for 30 to 60 seconds, or until it feels cold. This practice should be followed anytime your water has not been used for more than 6 hours.
- Always use cold water for drinking, cooking or making baby formula. Use faucets and plumbing material that are either lead free or will not leach unsafe levels of lead into your water.

Is our water system meeting other rules that govern our operations? The State and EPA require us to test our water on a regular basis to ensure its safety.

We met all the monitoring and reporting requirements for 2013.

We are committed to providing you safe, reliable, and healthy water. We are pleased to provide you with this information to keep you fully informed about your water. We will be updating this report annually, and will also keep you informed of any problems that may occur throughout the year, as they happen. Copies are available at the City of Center Line Municipal Offices, 7070 E. 10 Mile Rd.

We invite public participation in decisions that affect drinking water quality; City Council meets the 1st Monday of every month at 7:30 p.m. For more information about your water, or the contents of this report, please contact the Department of Public Works at 586-758-8278.

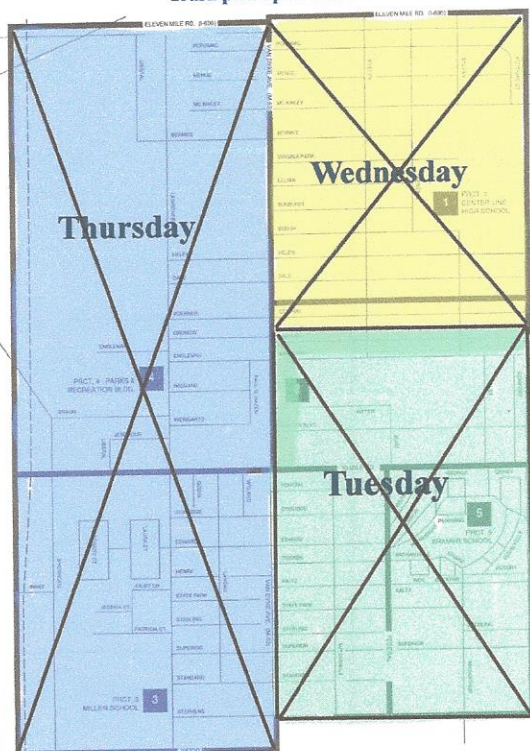

The EPA, Safe Drinking Water Hotline 1-800-426-4791 is a resource for health related questions and water quality issues. For more information about safe drinking water, visit the U.S. Environmental Protection Agency at www.epa.gov/safewater/.

Department of Public Works

www.centerline.gov/public-works

Trash pick up schedule

It is necessary that yard waste, recyclables and solid waste be placed at the curb no earlier than the evening before the scheduled pick up, and no later than 7:00 a.m., on your pick up day. Failure to place your waste containers during the required times, will result in your containers **not being** picked up.

Solid Waste

All solid waste (garbage) is to be placed in proper containers of not more than 30-gallon capacity or size, or placed in 30-gallon plastic garbage bags, not to exceed 60 pounds each. All solid waste shall be placed by the curb for pick up day.

ITEMS THAT WILL NOT BE PICKED UP:

Household batteries, vehicle batteries, paint, motor oil and building materials.

Hazardous Waste Materials

The Macomb County Health Department, Household Waste Program, located at 43524 Elizabeth Road, Mt. Clemens, will accept gardening, automotive and household products. Call the hotline number at (586) 469-7923 in advance for disposal hours and for a list of items accepted. For more information visit

www.macombcountymi.gov.

Compost/Yard Waste Regulations

Compost/Yard Waste: April 1-Nov 30.

All yard waste including grass, leaves, plant materials, and brush are to be placed in containers, no larger than 30 gallon receptacles clearly marked "YARD WASTE ONLY" or brown paper bags. Yard waste in **PLASTIC** bags will **NOT** be picked up.

Holiday Pick Up

Remember--solid waste, recycling and compost scheduled for pick up on a legal holiday will be picked up on the next regular business day. Rizzo Services observes the following holidays: New Year's Day, Memorial Day, July 4, Labor Day, Thanksgiving Day, and Christmas Day.

Senior Chore Service 586-469-2012

The Senior Citizen Chore Service program is for persons aged 60 years and older in targeted areas in southern Macomb County. Center Line Residents call **586-469-5012** for eligibility and to join. **Reminder: you must call each year to be placed on the snow and grass lists.**

Seasonal Services

Seasonal services are currently available in Center Line, Roseville, St. Clair Shores, Eastpointe, Warren and Clinton Twp. *Service is limited and may be granted on a priority basis for those determined to be in the "greatest economic or social need."*

Snow Removal: Call between August 15th and October 15th. You will receive a letter of confirmation in December. Once you receive the letter it is NOT necessary to call when it snows. Snow removal is usually performed after a snowfall of THREE (3) or more inches. Normally snow is cleared within 5 days of snowfall.

Grass Cutting: Call between February 1st and March 15th. If your name is placed on the Grass List you will receive a letter of confirmation before grass cutting season begins. It is NOT necessary to call again for grass cutting. Grass will be cut approximately once every two (2) weeks. Grass cutting generally begins the first of May and continues through September. For other jobs such as trimming bushes, you must call 586-469-5012 so a job request can be taken and scheduled.

Odd Jobs/Special Projects: Available from November through March. It may be necessary that you purchase materials. This may include: Minor Plumbing or electrical, replacing locks, changing fur-

Senior Transportation 586-269-0551

Center Line Parks & Recreation, in cooperation with Warren Parks and Recreation, offers a curb-to-curb senior transportation service. This service helps seniors and handicapped persons remain independent for life. **Please be advised that drivers are NOT allowed to leave the vehicle to assist passengers in any way.**

Eligibility & Who to Call

Any Center Line or Warren resident 55 years of age or older; or handicapped individuals of any age.

All trips must be scheduled through the dispatcher at (586) 268-0551.

Transportation Office Hours—Monday thru Friday 8 am -3 pm.

Please make your requests for trips at least 2 days but not more than two calendar weeks in advance.

Shopping Trips

Tuesday—Meijer

Wednesday—Wal-Mart

Every other Thursday: Bus travels to area malls on a rotating basis (Macomb, Oakland, and Universal). Call 586-268-0551 for the schedule.

Center Line residents pay a \$2.00 round trip fee.

Medical Appointments

Individual appointments are taken for Mondays, Tuesdays, Thursday and Fridays ONLY. Service area is within the cities of Center Line or Warren or within one mile outside of the city of Warren. Center Line residents pay a \$4.00 round trip fee

*Medical appointments must be scheduled at least 2 weeks in advance. **All appointments need to be concluded by 2 p.m. otherwise you must make your own arrangements for transportation home.**

You're Going To Love

Everything that is new at Center Line Park Towers!
Affordable Senior Apartments

The Best in Center Line!

One and two bedroom apartments plus:

- Heat, Electricity & Water Included
- Laundry & Storage on Each Floor
- Private Park & Beautiful Views

Residents can enjoy our newly renovated:

- Community Room with Flat Screen TV
- Library, Exercise and Billiard Rooms
- Planned Activities and Events

Unique Services Available:

- Visiting Physician & Health Services On Site
- Resident Service Coordinators
- Hair Salon, Boutique & Convenience Store
